## What is PACE?

PACE (Project Actors Community in Europe) builds a Community of Practice for European project actors with the aim of supporting each other by

- collecting
- sharing
- updating
- further improving and
- disseminating

existing tools for transnational project management.

PACE provides management and learning materials, tools, templates, checklists, methods etc. covering the whole process of European project management.

## PACE Platform

The PACE platform is a cloud-based solution which offers you project management support tools making full use of multi-media, social media and mobile learning. It will work as a one-stop shop for accessing useful project management tools and finding peer support for addressing project challenges.

The five thematic project management areas addressed are:

-  **Plan & Organise**
-  **Adminster**
-  **Evaluate**
-  **Disseminate**
-  **Manage People**

European project management know-how generated by LLP projects will be transferred to the new generation of programmes in a refined mode and with the high visibility it deserves.

## Participate in PACE BarCamps!

PACE organises two EU Project Management BarCamps – for networking and sharing good project-management practice.

**November 2014 and June 2015 in Florence, Italy**

At the PACE BarCamps you can exchange your experience in EU project management. Before and after the events the participants will be actively encouraged to contribute to the PACE platform and its materials.

**You want to know more? Visit  
[www.projectactors.eu](http://www.projectactors.eu)**

## Become a PACER!

**Join PACE now and participate in developing the platform!**

**Are you a European project manager or do you plan to coordinate an EU project?**

**Are you looking for new ways to improve your project management performance?**

**Are you interested in getting to know European project management tools?**

**Do you want to share your experience in European project management?**

**Become a member of the European-wide PACE community, get in touch with other European project actors and benefit from know-how built on long-standing experience in European project management.**

**Join the PACE Platform:**
